§1517.0204 Financing of Public Facilities

- (a) Purpose and Intent

The public health, safety, and welfare require that residents in newly developing areas be adequately served with access, parks, schools, open space, libraries, fire stations and other public facilities concurrent with the need.

- (b) Financial Responsibility

All necessary public facilities shall be provided by the project applicant, either directly by the applicant or by other means such as a charge against the area within the Otay Mesa Development District in accordance with the adopted Otay Mesa Community Plan.

- (c) Financial Programs for Municipal Facilities

The Municipal Facilities required for the Otay Mesa community shall be financed through these programs:

- (1) Facilities Benefit Assessment or Development Impact Fee.

- (A) For facilities which already exist outside of the Otay Mesa community, but which require additions or expansions to existing facilities to meet the requirements of the Otay Mesa community: i.e., police and public work facilities.
- (B) For new facilities necessitated by the Otay Mesa community: i.e., fire station and transportation facilities.
- (C) For facilities which extend beyond the limit of the Otay Mesa community, whose service area is also greater than the Otay Mesa community and the need for which is not solely created by the Otay Mesa community: costs for improvements so constructed may be partially offset by reimbursements from development in those service areas greater than the Otay Mesa community.
- (D) For facilities within or without the community which are intended for the use of residents such as: street scene improvements (landscaping of the medians and right-of-way along major streets), traffic signals at the intersection of major streets, and other transportation facilities.

(2) Improvement District

An Improvement District under the provisions of state law or local procedural ordinance may be created to create assessments against the land to generate funds to finance facilities which are related to each individual planned district area by amount of benefit received. The facilities to be provided by this improvement district may include, but not be limited to: major perimeter streets; transit improvements; both municipal and other public utilities and drainage facilities contained therein. The boundary of each improvement district will be the centerline of the bordering perimeter streets, or other applicable limit, of each individual development plan area within the Otay Mesa community as the City shall determine.

(3) On-Site Municipal Improvements

The on-site municipal facilities, those within the individual neighborhood and not provided by Sections 1517.0204(c)(1)(A) and 1517.0204(c)(1)(B), such as: streets, storm drains, and sewer, water, gas, power, and telephone utilities, will be provided by the subdivider under the conventional bonded subdivision agreement.

(4) Off-Site Municipal Improvements

The off-site municipal improvements are those outside of an individual development plan area at the time of its development and not provided under the conventional subdivision process for off-site improvements. The off-site improvements so constructed may be subject to a reimbursement agreement between the persons who constructed the improvements and the City of San Diego.

Reimbursement pursuant to that agreement will be generated by the subdivider(s) of the subsequent development plan areas, where adjacent, and will be paid to the appropriate subdivider(s) as and when such funds are generated within the subareas covered by the reimbursement agreement.

(5) Any other programs approved by the City Council.

(6) Implementation

No final subdivision map, building permit or Otay Mesa Development District Permit for the development of the property shall be approved by the City Manager unless and until the following have been accomplished:

- (A) A financing plan for all public facilities needed to support the project, as required by the Otay Mesa Community Plan, has been adopted pursuant to Council Policy 600-28.
- (B) There has been established either a Facilities Benefit Assessment or a Development Impact Fee applicable to the property covered by the development plan, or a greater area, and the City Council has by resolution, set the amount of such Facilities Benefit Assessment or Development Impact Fee.

(7) Financing Agreement

The requirements of Section 1517.0204(c)(4) (Off-Site Municipal Improvements) shall be deemed to be met if the project applicant has entered into a binding financing agreement, approved by the City Council.
